Summary

- Full-stack engineer with 2+ years of experience building and shipping production-grade web and mobile apps.
- Strong background in React, React Native, Node.js, and AWS, with hands-on experience designing scalable APIs and real-time systems.
- Experienced in owning features end-to-end — from system design and implementation to cloud deployment and production support.

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend & Mobile: React, Next.js, React Native

Backend & APIs: Node.js, Express.js, Hono, REST APIs, WebSockets, FastAPI

Databases & ORM: PostgreSQL, MongoDB, MySQL, Firestore, Prisma

Cloud & DevOps: AWS, Vercel, Hostinger, Git, CI/CD, Nginx, Docker

Tools & Integrations: Payload CMS, Payment Gateway Integration, Google Maps API, FCM, Vercel AI SDK

Education

Chandigarh University, Bachelor of Engineering in Computer Science 2020 – 2024

- CGPA: 8.49

Higher Secondary (CBSE) 2018 – 2020

- Percentage: 95.4

Experience

Full Stack Developer, Oceaniek Technologies February 2025 – Present

- Developed and deployed full-stack applications using React.js, Next.js, and Node.js with MongoDB.
- Deployed production-ready apps using AWS S3, Route 53, and EC2, and scaling using Amplify and VPS setups.
- Integrated payment gateways to enable secure transactions across multiple production applications.
- Collaborated with designers and interns, leading weekly code reviews and ensuring high-quality deliverables.

Software Development Engineer, Cybernext July 2023 – February 2025

- Built full-stack blockchain-enabled applications using React.js and Payload CMS.
- Built real-time React Native apps integrated with backend services and Firebase.
- Created modular SDKs for internal CLI tools, improving developer onboarding and automation.
- Led multiple project threads, conducted QA and performed code reviews to ensure high-quality deliverables.

Software Engineer Intern, Complykart June 2022 – July 2022

- Designed and developed responsive web pages using React.js and Tailwind CSS.
- Managed and maintained databases, ensuring data integrity and efficient storage solutions.

Projects

Assist-AI | AI-Powered Multi-Agent Support System assist-ai-chat.vercel.app

- Built a full-stack multi-agent AI support system using Hono, Vercel AI SDK, and SSE, with intelligent routing, real-time streaming, and a scalable PostgreSQL + Prisma architecture.

Hap | Real-Time Event Management Platform 20bcs9772/eventflow

- Developed a real-time event management platform with a React Native app and Node.js backend, featuring live schedules, role-based access, maps integration, and push notifications.
